## **DETAILED ACTION**

### **Requirement for Information**

1. Applicant and the assignee of this application are required under 37 CFR 1.105 to provide the following information that the examiner has determined is reasonably necessary to the examination of this application. Applicant must submit a copy of European patent No. 81900325 and Spanish patent No. 2111477 mentioned in the background section of the application.

### ***Drawings***

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the "weighing station" must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for

Art Unit: 2841

consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Claim Objections***

3. Claims 1-5 are objected to because of the following informalities: each of these claims are in the form of multiple sentences. A claim must be in the form of a single sentence with a period occurring only at the end. Periods may not be used elsewhere in the claims except for abbreviations. See *Fressola v. Manbeck*, 36 USPQ2d 1211 (D.D.C. 1995); and, *MPEP* § 608.01(m). Also, claim 1 is incomplete since it ends with a colon, not a period.

The examiner also notes the phrase "of the type" renders claim 1 indefinite. See *Ex parte Copenhaver*, 109 USPQ 118 (Bd. App. 1955); *Ex parte Attig*, 7 USPQ2d 1092 (Bd. Pat. App. & Inter. 1986); and, *MPEP* § 2173.05(b).

Appropriate correction is required.

***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Perez Galan (US #4,592,434).

***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Power, Jr shows eccentric rollers for transporting fruit. Furuta et al show a weighing conveyor similar to applicant's device.
